Abstract:
Karisma bookstore Serpong Giant Branch is a branch of the PT. Karisma Mediatama script now engaged in the retail sale of products includes all kinds of books, magazines, school supplies and office appliances.
In the procurement of products Bookstores Serpong supply Karisma Giant Branch of the Central Office, while for the procurement of supplies magazine products directly from suppliers with the approval of headquarters and provided counter placement. Until now the administration system for receiving goods counter at Giant Branch Bookstores Karisma Serpong still are semi computer, only using Microsoft applications Microsoft Word and Excel. By using this application processing and data entry is too complicated so that the data double frequent, complex searches of data and preparing reports semi-automatic.
In order to overcome the existing problems we need a good information system, practical and computerization are expected to improve efficiency and effectiveness in the process of collecting data and preparing reports, the authors propose solving the problem by creating an information system in order to solve these problems.
