The development of increasingly sophisticated computers are very helpful in data processing still using manual systems. This often creates problems relating to the accuracy of the data resulted in delays in data processing. Information that is valuable information quickly and accurately. So needed a system of computerization as a supporter. Payments Administration System BP3 On SMP Negri Kedoya 197 is designed with the aim to obtain and process information quickly and accurately as well as secure data storage. So with the end result is useful in decision making.
